No.	RFP No.	Description
01.	Doc2231990479	Provision of Security Operations Centre Deployment and Operations Services for Debswana

Brief:

DEBSWANA currently lacks a dedicated in-house Security Operations capability, which is presently outsourced to a sister company within the Group. The company is now seeking to establish its own Security Operations Centre (SOC), either through direct ownership or in-house management, without relying on third-party intermediaries. This initiative aims to deploy and operationalize a comprehensive SOC to mitigate security risks, safeguard information assets, ensure operational safety, and maintain business continuity. The SOC will provide continuous monitoring, detection, analysis, and response to security threats, protecting DEBSWANA's digital and physical assets from current and emerging cyber threats.
